

AAS TEKNIK SOLUTIONS

Vision:

Our vision is to establish AAS Teknik Solutions as the recognized leader in industrial and Asset Management Solutions with a strong presence in Pakistan region where we should be able to not only meet but exceed the expectations of valued customers.

Introduction:

Since 2013 AAS Teknik Solutions, is a team of highly professional engineers to provide complete solutions specifically for the Oil & Gas and Power sector and generally for all the industrial sectors. AAS TEKNIK Solutions, helping clients in all the sectors improve operations and optimize system performance.

In order to accomplish this goal, we continuing focus on a few key areas:

- Achieving total quality in all our activities.
- Developing dedicated people who understand our business and of our customer's.
- Being responsive to customer's needs and working according to their schedule.
- Providing world-class services and support at all levels.

Core Activities:

1. Heavy Machinery Equipment & Parts
2. Personal Safety Equipment & Hand Tools
3. Electrical Testing Tools & Equipment
4. Power Monitoring and Smart Grid Solutions
5. Electrical Hazardous area Equipment & Explosion Proof Solutions
6. Warehouse Equipment

Heavy Machinery & Parts:

We are dealing in new, used and rental machinery for all industrial sectors. Our core areas which we cover as below:

Hoisting Machinery

Mining Machinery

Excavators

Loaders

Road Machinery

Piling Machinery

Non-Excavation Machinery

Concrete Machinery

Special Vehicle

Aerial Working Equipment

Sanitation Machinery

Tunnel Machinery

Fire-fighting Machinery

Industrial Lifts

Industrial Cranes

Resource Exploration Machinery

TLB

Front END Loader

Excavator

Dumping Truck

Scooptram

Forklift

Bobcat

Mobile Crane

Bulldozer

Tower Crane

Grader

Reach Truck

Roller

Personal Safety Equipment & Hand Tools:

Professional Testing Equipment:

Power Energy Meters:

More than 40 years later, Electro Industries/GaugeTech, the Leader in Power Monitoring and Smart Grid Solutions, continues to revolutionize the industry with the highest quality, cutting edge power monitoring and control technology on the market today.

- High Performance Power Quality monitoring
- Multifunction Switch Board Power Meters
- Single Function Switch Board Meters
- Communication Converter Products
- Switchboard Accessories
- Replacement Accessories
- Advanced Revenue Metering
- Energy Monitoring
- Energy Management Software
- Instrument Transformers
- Optical/Serial Cable

An ISO 9001:2000 certified company, EIG sets the industry standard for advanced power quality and reporting, revenue metering and substation data acquisition and control. EIG's products can be found on-site at virtually all of today's leading manufacturers, industrial giants and utilities.

Electric Hazardous Area Equipment & Explosion Proof Solutions:

Founded in 1992, Extronics is a leading global designer and manufacturer of intrinsically safe and explosion proof equipment that work in potentially explosive environments, especially those in the chemical, pharmaceutical, petrochemical, oil and gas industries.

Extronics Products are approved by the leading bodies e.g. ATEX, IECEx, Factory Mutual etc

Extronics is recognised as leaders in the Hazardous Area market, Extronics has particular expertise in Wireless, Vision Technologies, Personnel & Asset Tracking and Purge & Engineered solutions.

Extronics Products range is as follows:

- Cameras
- Ex d Enclosures
- Explosion Proof Solutions
- Gas Detection
- PCs & Data Capture
- Personnel & Asset Tracking
- Purge Solutions
- Uninterruptible Power Supplies
- Wireless

LED Signals & Hazardous areas Lighting Solutions:

defines the current state of LED lighting technology with continuous innovations in output, efficacy and reliability for our complete of high-specification lighting fixtures specifically designed for industrial, commercial, hazardous location, transportation & public infrastructure applications. These results are directly related to our ongoing commitment to advancing solid-state lighting products that vastly reduce maintenance, improve safety, ease disposal, and are more environmentally friendly - thereby helping to reduce CO₂ emissions, the dominant GHG contributor to global warming.

line

- LED Lighting Solutions
- DuroSite® Industrial Solutions High Bays
- StreetSense® Infrastructure Solutions
- SafeSite® Hazardous Area Solutions
- LED Signaling Solutions
- Transportation Signals
- Traffic & Intersection
- Rail Signals
- Vehicle Signals
- SafeSite® Hazardous Area Signals
- Neon / Incandescent
- Military Indicators

Warehouse Equipment:

EP is a provider which not only provides a full range of storage and logistics equipment, but also provides warehousing

and logistics technology services. The integration, demand fulfillment and growing together. Over the decades, EP played a key role in warehouse equipment industry of China. Focus on the environment, the earth and our common home has always been EP's social commitment. EP will constantly develop new warehouse equipment's to meet market demand through innovation and new technology.

Meeting market demands is what motivates EP. To meet various customer needs, EP not only offers a full range of material handling equipment, but also builds an international technology service platform with a team of EP experts which provides professional service and values for customers.

Other Products:

AAS Teknik Solutions also have expertise in sourcing the required materials for our valued clients including but not limited to the following products

- Industrial Batteries
- Industrial UPS
- Circuit Breakers
- Generators Parts & Services
- Steel Pipes & Fittings and many more ...
-
